## DETAILED ACTION

### *Election/Restrictions*

1. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1-4, 6-10, 26, drawn to a method.

Group II, claim(s) 27-37, drawn to an apparatus.

Group III, claim(s) 38, drawn to a product.

Group IV, claim(s) 40, drawn to a product.

2. The inventions listed as Groups I - IV do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: The groups lack unity *a posteriori* because the method of claim 1, which is common to all claims, is not a special technical feature. It is known in the art to manufacture a photo-oriented polymeric layer using a radiation source which is split and polarized. See Lee (US 6285427) and Chigrinov (US 5389698).

3. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
